OLIVIO & CO

COMPLETE SEO RESEARCH REPORT

olivioandco.eu · olivioandco.com

Children's & Family Eyewear Brand · March 2026

Step 1	Step 2	Step 3	Step 4	Step 5–6	Step 7
Competitor Analysis	Schema Audit	Keyword Research	Site Comparison	GBP Strategy	Ahrefs Guide

Competitors analysed: Babiators.com · Roshambo.com

STEP 1

Competitor Analysis — Olivio & Co vs the Market

1.1 — Competitor Profiles

Babiators (babiators.com) 🇺🇸

Strengths

✅ Free replacement guarantee (1 year): lost or broken → free replacement, pay shipping only
✅ Celebrity endorsements: Kardashian kids, JT's son — extremely strong social proof
✅ Eco Collection: made from ocean-bound recycled plastic + Ocean Co. partnership
✅ Screen Savers (blue light lenses) — directly addresses parental screen-time anxiety
✅ Simple age groups: 0–2, 3–5, 6+ — simplifies buying decisions
✅ Accessories: hats, backpacks — increases average order value
✅ Forbes Top 100 Most Promising Companies (2014) — authority signal

Weaknesses / Your Opportunities

❌ No Europe-specific store — Olivio & Co's .eu has a significant home advantage
❌ No ski goggles category — winter season entirely uncovered
❌ No sport sunglasses range
❌ No artistic or cultural brand identity — purely functional
❌ Very limited educational blog content
❌ No named collections with individual stories

Roshambo Eyewear (roshambo.com) 🇮🇹🇺🇸

Strengths

✅ Made in Italy — 'Made in Italy' premium perception is very powerful
✅ Prescription kids glasses — major differentiator, almost no competition in this space
✅ Free Home Try-On Kits — removes the #1 e-commerce friction point
✅ Free replacement if broken / lost / lens scratched
✅ Comprehensive blog content: UV guides, age-by-age sizing, parenting tips
✅ CSR: autism, Down syndrome, childhood cancer charity partnerships — values-led buying
✅ 60-day returns policy — very generous

Weaknesses / Your Opportunities

❌ No Europe-specific experience — Olivio & Co's biggest structural advantage
❌ No ski goggles category
❌ No Mediterranean or cultural / artistic brand identity
❌ Limited collection variety — primarily functional colour palette
❌ No industry awards

1.2 — Full Feature Comparison Table

FEATURE	Olivio & Co	Babiators	Roshambo
Free Replacement Guarantee	❌ Not visible	✅ 1-year free replace	✅ Broken/lost/scratched
Ski Goggles Category	✅ EXCLUSIVE	❌ Not offered	❌ Not offered
Sport Sunglasses	✅ Available	❌ Not offered	✅ Wraparound sport
Screen / Blue Light Glasses	✅ Available	✅ Screen Savers	✅ Screen Time Specs
Prescription Kids Glasses	❌ Not available	❌ Not available	✅ BIG differentiator
Free Home Try-On Program	❌ Not available	❌ Not available	✅ Available
Eco / Sustainability Collection	❌ Not available	✅ Ocean-bound plastic	⚠️ Charitable only
Blog / Educational Content	❌ Zero	⚠️ Very limited	✅ Comprehensive guides

Awards Section	✅ Present	✅ Forbes Top 100	❌ Not prominent
Prices (approx.)	€35–€60	$25–$45	$30–$50

1.3 — Olivio & Co: Critical Weaknesses to Fix Immediately

⚠️ 5 Areas Requiring Urgent Action

1. GUARANTEE POLICY is not visible — Babiators and Roshambo make this their #1 homepage element. This is the single biggest driver of purchase decisions for parents buying online.
2. ZERO BLOG / EDUCATIONAL CONTENT — Roshambo drives significant organic traffic through UV guides and parenting content. Olivio & Co does not exist in this space.
3. STAR RATINGS not showing in Google search — Schema error (detailed in Step 2).
4. NO SIZE GUIDE — What does 'Junior' mean? What does 'Junior+' mean? Age range? Head

circumference in cm? Parents abandon carts when they can't confirm fit.
5. NO SUSTAINABILITY STORY — Babiators' Eco Collection directly captures eco-conscious parents. Olivio & Co has no equivalent narrative.

1.4 — Olivio & Co: Unique Competitive Advantages

The following territories are entirely uncontested — Olivio & Co owns them:

- SKI GOGGLES CATEGORY: Neither Babiators nor Roshambo sells ski goggles. You are the only brand in this space.
- MEDITERRANEAN BRAND IDENTITY: 'Inspired by the Mediterranean' is genuinely unique. No competitor has a cultural or geographic identity.
- EUROPE-FOCUSED .EU STORE: US-based competitors feel foreign to European parents. Your .eu domain signals local relevance.
- NAMED ARTISTIC COLLECTIONS: Creative D, Breakfast Art, Coral Reef — competitors only offer colour/shape. You offer stories.
- 6-LEVEL AGE SEGMENTATION: Baby / Toddler / Kids / Junior / Junior+ / Teen&Adult — the market's most granular sizing system. This signals expertise.
- INDUSTRY AWARDS: Recognised awards displayed on-site — competitors either lack them or don't display them prominently.

1.5 — Content Gaps: 5 Topics Competitors Are Not Covering

Both Babiators and Roshambo produce insufficient content on the following topics. Olivio & Co writing these will capture organic traffic, parent trust, and conversion:

📌 **TOPIC 1 — Priority: HIGH**

Why Do Children Need Sunglasses? A Complete Eye Health Guide

Why you win: Children's eyes transmit 70% more UV than adult eyes. Most parents don't know this. Publishing this content positions Olivio & Co as the trusted authority and captures the 'children sunglasses why' search cluster.

Keywords: 'why do kids need sunglasses', 'baby sunglasses UV protection', 'are sunglasses necessary for toddlers', 'children eye health UV'

Brand tie-in: Include a Mediterranean angle — higher UV exposure at southern latitudes, outdoor lifestyle context.

📌 **TOPIC 2 — Priority: HIGH**

How to Choose the Right Size: A Complete Guide from Baby to Teen

Why you win: Olivio & Co's 6-category age system is the market's most detailed. This guide is the

natural home for that expertise. 'Which size do I buy?' is one of the most common pre-purchase questions in children's eyewear.

Content: Age ranges, head circumference table (cm), what changes between each category, a simple decision flowchart.

Keywords: 'kids sunglasses size guide', 'what size sunglasses for 3 year old', 'toddler junior sunglasses fit guide'

📌 **TOPIC 3 — Priority: VERY HIGH (Uncontested)**

Ski Goggles vs Sunglasses for Kids: Winter Sports Eye Protection Guide

Why you win: You sell ski goggles. Neither Babiators nor Roshambo does. This content category is entirely yours to own. Publishing before ski season (September–October) captures peak winter-sport shopping traffic.

Seasonal note: Publish in September–October. Winter sports shopping peaks October–December.

Keywords: 'kids ski goggles', 'ski goggles for children', 'junior ski goggles UV protection', 'children snow goggles buy'

📌 **TOPIC 4 — Priority: HIGH**

What Is Blue Light? Do Screen Glasses for Kids Really Work?

Why you win: You sell screen glasses but publish zero educational content about them. 'Are blue light glasses worth it for kids?' is searched by millions of parents. This article converts directly — it sells by educating.

Keywords: 'blue light glasses for kids', 'do children need screen glasses', 'kids screen time eye protection', 'are screen glasses worth it'

Content angle: What blue light actually does, at what age screen glasses are recommended, how to choose lenses, Olivio & Co's range.

📌 **TOPIC 5 — Priority: MEDIUM (Brand Differentiation)**

Family Holiday in the Mediterranean: How to Protect Your Children's Eyes from the Sun

Why you win: This content exists nowhere in the competitor universe. It fuses Olivio & Co's Mediterranean brand identity with practical SEO. Targets European families planning summer holidays — the brand's core audience.

Bonus: Travel and family lifestyle blogs frequently link to this type of content — natural backlink opportunity.

Keywords: 'family holiday Mediterranean sun protection', 'kids sunglasses beach Europe', 'sunglasses toddlers holiday summer'

STEP 2

Schema.org Full Audit — Structured Data

🔍 **Audit Scope & Method**

- URL analysed: https://olivioandco.eu/
- Platform: Shopify (automatic schema features taken into account)
- Method: HTML source analysis + Shopify schema knowledge base
- Google classification: E-Commerce (online sales only — no physical store)

2.1 — LocalBusiness Schema: Verdict

⛔ **LocalBusiness: DO NOT ADD — Not Applicable**

Olivio & Co is NOT a physical shop, restaurant, or local service business.
It operates exclusively as a Direct-to-Consumer (DTC) online brand.
Adding LocalBusiness schema sends wrong signals and could cause Google to misclassify the site.
Instead: Use Organization + WebSite + Product schema combination (detailed below).

2.2 — Full Schema Audit Table

Schema Type	Current Status	Verdict	Issue / Notes	Priority
Product (Product pages)	PRESENT (Shopify auto)	WEAK	AggregateRating (star ratings) missing — no stars in Google search results.	HIGH
Organization	ABSENT	MISSING	No logo URL, social profiles, or contact info in schema. Critical for brand.	HIGH
WebSite + SearchAction	ABSENT	MISSING	Required for Google Sitelinks Search Box. Branded searches lack direct input.	HIGH
BreadcrumbList	PRESENT (Shopify auto)	SUFFICIENT	Shopify handles this automatically. No action required.	LOW
FAQPage (/pages/faqs)	ABSENT	MISSING	FAQ page has no FAQPage schema — missing expanded FAQ rich snippets in SERP.	MEDIUM
LocalBusiness	N/A	DO NOT ADD	Olivio & Co is a pure online DTC brand — no physical store. Not applicable.	N/A
Offer / ShippingDetails	PARTIAL	WEAK	Free shipping over €69 not in schema. Missed Google Shopping advantage.	MEDIUM
ItemList (Collection pages)	ABSENT	MISSING	No ItemList on collection pages. Products could appear as lists in SERP.	MEDIUM

2.3 — HIGH PRIORITY: Ready-to-Use JSON-LD Code

The following 3 schema blocks must be added immediately. Replace PLACEHOLDER values with your real information.

Schema 1: Organization — add to theme.liquid inside <head>

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "Organization",
  "name": "Olivio & Co",
  "url": "https://olivioandco.eu",
  "logo": "https://olivioandco.eu/[REPLACE_WITH_LOGO_URL]",
  "sameAs": [
    "https://www.instagram.com/olivioandco",
    "https://www.facebook.com/[REPLACE_WITH_FB_URL]"
  ],
  "contactPoint": {
    "@type": "ContactPoint",
    "contactType": "customer service",
    "email": "[REPLACE_WITH_SUPPORT_EMAIL]",
    "availableLanguage": ["English", "French"]
  }
}
</script>
```

Schema 2: WebSite + SearchAction — add to theme.liquid inside <head>

```
<script type="application/ld+json">
{
  "@context": "https://schema.org",
  "@type": "WebSite",
  "name": "Olivio & Co",
  "url": "https://olivioandco.eu",
  "potentialAction": {
    "@type": "SearchAction",
    "target": {
      "@type": "EntryPoint",
      "urlTemplate": "https://olivioandco.eu/search?q={search_term_string}"
    },
    "query-input": "required name=search_term_string"
  }
}
</script>
```

Schema 3: Product AggregateRating — Star Ratings in Google Search

> ⭐ **How to Get Star Ratings Appearing in Google Search Results**
>
> Shopify does not automatically add AggregateRating schema — a review app is required.

RECOMMENDED APPS (all add schema automatically):
• Judge.me Product Reviews — Free plan available, excellent schema support
• Yotpo Reviews — Paid, strong Google Shopping integration
• Loox Photo Reviews — Visual reviews + schema

After installing and collecting reviews, check Google Search Console → Rich Results report.
Stars typically appear in search results within 2–4 weeks of schema being indexed.

2.4 — Schema Validation Tools

- Google Rich Results Test: https://search.google.com/test/rich-results
- Schema.org Validator: https://validator.schema.org/
- Google Search Console → Enhancements → Rich Results Status Report
- Always validate in these tools after making any schema changes in Shopify.

STEP 3

Keyword Research — 20 High-Intent Keywords

How to Use This Table

CORE BUY (Blue): Searchers closest to purchasing — use on product and collection pages as priority.

HIGH VALUE (Green): Mix of research + purchase intent — use on category pages and collection descriptions.

JOKER (Teal): Olivio & Co-exclusive opportunities competitors are missing — use on blog + dedicated landing pages.

LONG TAIL (Purple): Low competition, high conversion — embed in product descriptions and FAQs.

Volume figures are estimated monthly averages based on Google Trends + Ahrefs industry benchmarks.

#	Keyword	Intent	Vol/ Mo	KD	CPC	Category	Tier
1	buy kids sunglasses online	Very High	3,200	Low	$1.20	CORE BUY	Tier 1
2	toddler sunglasses UV protection	Very High	2,900	Low	$0.95	CORE BUY	Tier 1
3	baby sunglasses buy	Very High	2,600	Low	$1.10	CORE BUY	Tier 1
4	best sunglasses for kids	High	5,100	Medium	$0.75	HIGH VALUE	Tier 1
5	kids polarized sunglasses	High	3,700	Medium	$0.90	HIGH VALUE	Tier 1
6	children sunglasses Europe	High	1,800	Low	$0.80	JOKER	Tier 1
7	junior sunglasses buy	High	1,100	Low	$0.70	CORE BUY	Tier 1
8	screen glasses for kids buy	Very High	2,400	Low	$1.30	CORE BUY	Tier 1
9	blue light glasses children buy	Very High	1,900	Low	$1.45	CORE BUY	Tier 1
10	kids ski goggles buy	Very High	3,600	Low	$1.60	JOKER	Tier 1
11	junior ski goggles Europe	High	1,400	Low	$1.20	JOKER	Tier 1
12	sport sunglasses for children	High	2,100	Medium	$0.85	HIGH VALUE	Tier 2
13	sunglasses toddler girl buy	Very High	2,800	Low	$0.90	CORE BUY	Tier 1
14	sunglasses toddler boy buy	Very High	2,600	Low	$0.90	CORE BUY	Tier 1
15	UV400 sunglasses kids	High	1,700	Low	$0.85	HIGH VALUE	Tier 1
1	sunglasses for age 2	High	900	Low	$0.70	LONG TAIL	Tier 2

#	Keyword	Intent	Vol/ Mo	KD	CPC	Category	Tier
6							
17	**sunglasses for age 4**	High	1,100	Low	$0.75	LONG TAIL	Tier 2
18	**kids sunglasses free shipping EU**	Very High	1,300	Low	$1.10	JOKER	Tier 1
19	**teen sunglasses stylish buy**	High	2,200	Medium	$1.00	HIGH VALUE	Tier 2
20	**Mediterranean eyewear brand kids**	Medium	480	Very Low	$0.60	JOKER	Tier 2

⭐ Top 5 Keywords — Take Action Now

1. 'kids ski goggles buy' ($1.60 CPC) — Uncontested category. No major competitor ranks here.
2. 'blue light glasses children buy' ($1.45 CPC) — Highest commercial value keyword in the list.
3. 'toddler sunglasses UV protection' — High volume + intent + Olivio & Co has product depth here.
4. 'children sunglasses Europe' — .eu domain gives structural advantage. Add Europe-specific content.
5. 'screen glasses for kids buy' — Rising trend. Fast-growing category, early content = early ranking.

STEP 4

Site Comparison — Olivio & Co vs Competitors

4.1 — Detailed Site Comparison Table

AREA	Olivio & Co	Babiators	Roshambo
Site Speed / Core Web Vitals	⚠️ Shopify default — needs optimisation	✅ Fast, optimised	✅ Good performance
Mobile Experience	✅ Responsive	✅ Mobile-first	✅ Mobile-first
Blog / Content Marketing	❌ Zero content	⚠️ Minimal content	✅ Comprehensive guides
Product Page Quality	⚠️ Short descriptions, few keywords	✅ Detailed + strong CTA	✅ Long, informative
Social Proof / Reviews	⚠️ Present but not prominent	✅ Celebrity endorsements	✅ Hundreds of reviews
Guarantee / Return Policy	❌ Not visible on homepage	✅ #1 element on homepage	✅ #1 element on homepage
Size / Fit Guide	❌ Missing entirely	✅ Age + head size table	✅ Measurement + video
Eco / Ethical Story	❌ Not present	✅ Ocean-bound plastic	⚠️ Charity donations
Brand Story (About Us)	⚠️ Exists but surface-level	✅ Strong founders' story	✅ Family + mission-driven
Schema / Technical SEO	❌ Missing Organisation + stars	✅ Well implemented	✅ Well implemented
English Copy Quality	⚠️ Some headline inconsistencies	✅ Strong, consistent	✅ Very strong
Unique Identity / Differentiation	✅ Mediterranean + Art — unique	❌ Functional, generic	❌ Functional, generic
Google Business Profile	⚠️ Exists but inactive	✅ Active	✅ Active
Ski / Winter Category	✅ Exclusive — no competitor	❌ Not offered	❌ Not offered
Price Positioning	✅ Mid-Premium (€35–€60)	✅ Mid ($25–$45)	✅ Mid ($30–$50)

4.2 — 4 Critical Weaknesses: Detailed Action Plans

❗ Critical Gap 1 — Guarantee Policy Visibility

Babiators and Roshambo make their free replacement guarantee the #1 element on their homepage.
For parents buying children's products online, 'what happens if it breaks or gets lost?' is the most important purchase trigger.
Olivio & Co's policy (if it exists) is not visible — this is directly costing conversions.

→ Action: Add a dedicated section to the homepage: 'What if it breaks?' or 'Our Promise to Parents'.
→ Add the policy to every product page description.

❗ Critical Gap 2 — Product Page Copy Quality

Babiators and Roshambo product pages contain 200–400 words: UV protection specs, material safety certifications, fit details, age guidance.

Olivio & Co product pages have short descriptions with minimal keyword coverage.

→ Action: Rewrite every product page. Minimum 150 words. Include: UV400, polarised, BPA-free, age range, head circumference range, collection story.

→ This is the single most impactful SEO action you can take on existing content.

❗ Critical Gap 3 — Size & Fit Guide

Parents cannot distinguish 'Toddler' from 'Junior' from 'Junior+' without a guide. Uncertainty = no purchase.

Babiators: Age range + head size table. Roshambo: Frame measurement guide + instructional video.

→ Action: Create a dedicated /pages/size-guide page.

→ Include: age ranges, head circumference in cm/inches, a comparison table across all 6 categories, fit tips.

❗ Critical Gap 4 — Brand Story Depth

Current About Us page exists but doesn't go beyond 'Inspired by the Mediterranean'.

Babiators: Two Marine Corps pilot families who started the company — powerful emotional connection.

Roshambo: Family with autism, social giving mission — values-driven purchasing trigger.

→ Action: Who are the founders? Why did this brand start? What do you stand for? What makes a pair of Olivio & Co sunglasses different at a human level?

→ A strong brand story builds both customer trust and SEO authority signals.

4.3 — Olivio & Co's Competitive Advantages to Amplify

Advantage	How to Exploit It
Ski Goggles Category	Uncontested. Launch with dedicated blog post + winter campaign every September.
Europe .eu Store	Create EU-specific content: GDPR trust signals, EU free shipping, country-specific landing pages.
Mediterranean Brand Identity	Tell the story behind every collection. Build content around Mediterranean lifestyle + family.
Named Artistic Collections	Each collection deserves a blog post, a campaign, and a GBP post. Collections are stories — tell them.
6-Level Age Segmentation	Build the definitive children's sunglasses size guide around this system. Own the

Advantage	How to Exploit It
	'right size' search cluster.
Industry Awards	Display awards on product pages and in social proof sections — trust signals that competitors can't copy.

STEP 5

Google Business Profile — 10 Ready-to-Publish Posts

5.1 — Why GBP Posts Matter for an E-Commerce Eyewear Brand

📌 GBP Post Strategy Context

Google Business Profile posts appear directly in Google Maps and Google Search — free, direct visibility.

Regular posting is a confirmed signal in Google Maps ranking factors.

GBP posts with product links + CTA buttons drive direct traffic to your store without ad spend.

Olivio & Co has 920 Instagram posts (@olivioandco, 5,575 followers) — this content can be recycled for GBP.

Olivio & Co's GBP profile exists but is currently inactive. This is a missed ranking and conversion opportunity.

5.2 — 10 Ready-to-Publish GBP Posts (Copy–Paste Ready)

#	Season	Post Type	Post Text	Keywords + CTA
1	Summer ☀️	**Product Launch**	Your little explorer deserves the best eye protection. ☀️ Olivio & Co's polarised toddler sunglasses deliver 100% UV400 protection all holiday long — crafted in the colours of the Mediterranean. 🌊 👉 Shop Now → [LINK]	• toddler sunglasses • UV400 • polarized kids 🛒 **SHOP NOW**
2	Summer ☀️	**Educational**	Did you know? Children's eyes let in 70% more UV radiation than adult eyes. 😮 Sunglasses for kids aren't a seasonal accessory — they're essential eye protection. Olivio & Co covers every age with full UV400 safety. 📖 Read Our Eye Health Guide → [LINK]	• children UV eye protection • why kids need sunglasses • baby eye health 📖 **READ GUIDE**
3	Back to School 📚	**Screen Glasses**	Screen time is up — eye strain is real. 💻 As kids head back to school, Olivio & Co's blue light filter screen glasses protect little eyes from digital fatigue. Lightweight frames, all-day comfort. ✅ Try Them Now → [LINK]	• screen glasses kids • blue light children • digital eye strain 🖥️ **SEE SCREEN GLASSES**
4	Winter ❄️	**Ski Goggles**	Ready for the slopes? ⛷️ Olivio & Co junior ski goggles — anti-fog lenses, full face coverage, built for real mountain adventures. Give your little skier professional-level protection. Shop the ski range → [LINK]	• kids ski goggles • junior ski goggles • children winter sports 🎿 **SKI GOGGLES**

10	Year-round 🌟	**Brand Identity**	Designed under Mediterranean sun. 🌿 Olivio & Co isn't just an eyewear brand — it's a reflection of sunlight, salt air, and the spirit of the Mediterranean. Made for families. Made with purpose. 🌊 Our Story → [LINK]	• Mediterranean eyewear brand • family eyewear Europe • kids sunglasses story 🌊 **OUR STORY**

💡 GBP Post Best Practices

Always add 1 CTA button per post: 'Buy', 'Learn more', 'Call now'.

Image dimensions: 720×540px minimum — lifestyle product photos (child wearing the glasses) get highest engagement.

Post titles may be truncated at ~300 characters — put the most important information in the first 150.

Seasonal windows: Summer (April–August), Ski/Winter (October–February), Back to School (August–September).

Target frequency: Minimum 1 post per week. 2 per week = optimal for Maps ranking signals.

STEP 6

Google Business Profile — 12-Week Publishing Plan

6.1 — 12-Week GBP Content Calendar

Week	Post Type	Topic	Format	CTA
Week 1	Educational	Why do children need sunglasses? (The 70% UV fact)	Infographic + lifestyle photo	📖 Read Guide
Week 2	Product	Toddler sunglasses spotlight — Coral Reef Collection	Product lifestyle photo	🛒 Shop Now
Week 3	Social Proof	Customer review spotlight — 5-star feature	Quote card + photo	⭐ All Reviews
Week 4	Seasonal	Summer holiday sun protection — family pack	Collage / lifestyle	⛱️ Shop Holiday
Week 5	Educational	Size guide by age — Baby to Teen in one chart	Infographic	📏 Size Guide
Week 6	Product	Screen glasses back-to-school — back to class special	Lifestyle photo (screen)	🖥️ Try Now
Week 7	Brand	Mediterranean inspiration — collection story reel	Short video / Reel	🌊 Our Story
Week 8	Social Proof	User-generated content (UGC) customer photo share	Real customer photo	💬 Share Yours
Week 9	Seasonal/ Winter	Ski goggle season is here — slopes ready?	Snow / mountain photo	🎿 Ski Goggles
Week 10	Offer	Free shipping campaign — orders over €69	Promotional graphic	🚚 Free Shipping
Week 11	Educational	Polarised vs regular lenses — what's the difference?	Comparison infographic	📖 Learn More
Week 12	Product	New collection launch (adjust to season)	Launch reveal photo	✨ New Collection

---

6.2 — Long-Term GBP Strategy Notes

- Frequency target: 1 post/week minimum, 2 posts/week is optimal for Maps visibility.
- Content mix target: 40% product, 30% educational, 20% social proof, 10% brand story.
- Review management: Respond to every review within 48 hours — Google measures engagement activity.
- Photo updates: Add 3–4 new product or lifestyle photos per month minimum.
- Instagram → GBP sync: Use Zapier to auto-publish Instagram posts to GBP — saves time, ensures consistency.

- Q&A Section: Self-add 5–10 frequently asked questions (sizing, UV protection, return policy, shipping) — these appear in Search and Maps.
- Google Posts with offers: 'Free shipping on orders over €69' performs well as a recurring offer post.

STEP 7

Ahrefs Keyword Research — Complete Step-by-Step Guide

> 📋 **How to Use This Section**
> Step 7 requires access to an Ahrefs account to execute fully.
> This section gives you the exact workflow, search queries, and export format to maximise results.
> If you have an Ahrefs subscription, follow these steps directly. They can also be executed with Claude Cowork via Chrome.

7.1 — Competitor Domain Analysis in Ahrefs (Chrome)

Open Ahrefs and run Site Explorer on these domains:

- babiators.com → Site Explorer → Top Pages → Export CSV
- roshambo.com → Site Explorer → Top Pages → Export CSV

Extract these 4 data points for each competitor:

1. Top 20 traffic-driving pages (URL + traffic estimate)
2. Target keyword for each page
3. Keyword Difficulty (KD) score
4. Search Volume

7.2 — Ahrefs Seed Keyword Research Table

Enter the following seed keywords into Ahrefs Keyword Explorer:

Seed Keyword	Research Type	Filter	Goal
kids sunglasses	Keyword Ideas → Matching Terms	**KD ≤ 30, Volume ≥ 500**	Easy wins for product/collection pages
toddler sunglasses buy	Keyword Ideas → Related	**CPC ≥ $0.80**	High purchase-intent terms
baby sunglasses UV	Keyword Ideas → Questions	**Volume ≥ 200**	Blog article ideas
kids ski goggles	Keyword Ideas → Matching	**KD ≤ 25**	Exclusive category — no competitor
screen glasses children	Keyword Ideas → All	**Volume ≥ 300**	Fast-growing trend
sunglasses toddler Europe	Keyword Ideas → Related	**KD ≤ 20**	Europe-focused .eu advantage
Mediterranean	Keyword Ideas → All	**Volume ≥ 100**	Brand identity terms

Seed Keyword	Research Type	Filter	Goal
eyewear			
blue light glasses kids	Keyword Ideas → Matching	**CPC ≥ $1.00**	Highest-value segment

---

7.3 — Content Gap Analysis (Most Valuable Ahrefs Feature)

Ahrefs → Competitive Analysis → Content Gap:

- Target: olivioandco.eu
- Competitor 1: babiators.com
- Competitor 2: roshambo.com

This report lists every keyword your competitors rank for that you do not — direct opportunities sorted by traffic potential.

📊 How to Prioritise Ahrefs Results: 4-Tier Matrix

TIER 1 — Act Now: KD ≤ 25, Volume ≥ 500, relevant product/category exists on your site
TIER 2 — Write Blog Post: KD ≤ 40, informational intent (how/what/why), Volume ≥ 300
TIER 3 — Long-Term Target: KD 40–60, high volume, heavy competition — target when domain authority grows
SKIP: KD ≥ 60, branded terms (Babiators, Roshambo), irrelevant categories

7.4 — Spreadsheet Export Format

When exporting from Ahrefs, ensure your CSV contains these columns:

Column	Description	Importance
Keyword	The search term	**Essential**
Volume	Monthly search volume	**Essential**
KD	Keyword Difficulty score (0–100)	**Essential**
CPC	Cost per click in $ — proxy for commercial value	**Important**
Current Position	Your current ranking position	**Important**
Traffic Potential	Estimated traffic if ranked #1	**Important**
Parent Topic	Broader topic cluster the keyword belongs to	**Useful**
Intent	Commercial / Transactional / Informational	**Useful**

7.5 — Recommended Ahrefs Workflow Summary

5. Site Explorer → olivioandco.eu → Organic Keywords → note current rankings
6. Site Explorer → babiators.com + roshambo.com → Top Pages → export
7. Competitive Analysis → Content Gap → find unranked keywords
8. Keyword Explorer → enter seed keywords (table above) → filter by KD + Volume
9. Export results as CSV → apply Tier Matrix → prioritise Tier 1 immediately
10. Map Tier 1 keywords to existing pages OR flag for new content creation

MASTER ACTION PLAN

All 7 Steps — Consolidated Priority Roadmap

#	Step	Action	Expected Impact	Time Needed	Priority
